

## PARSHAS HA'AZINU

Rav Mordechai Kalatsky  
September 22, 23 | 7th Tishrei, 5784

יְבֹחֵז לְשָׂדִים לֹא אֱלֹהִים אֵלֶיֶם לֹא יָדְעוּם חֲדָשִׁים מִקֶּרֶב בָּאוּ לֹא שֶׁעָרְוּם אֲבֹתֵינוּ

"NEW ONES, THAT RECENTLY CAME UP; WHOM YOUR FOREFATHERS DID NOT KNOW." (Devarim 32:17)

"The process of new false ideologies," comments Rabbi Avigdor Miller, "is a part of the constant test of virtue which living men must endure all their lives. The Torah and the Torah people are an old and established firm, which has been in business for a few thousand years and has weathered many crises and outlived many competitors. We view opponents, physical or ideological, who rise up against us in every generation, with a calm and seasoned eye; and we know that they will go down into oblivion as did all the upstarts who preceded them."

There is a feeling of worry and anxiety for the Jews in Israel and the world over. We have a responsibility to do everything we can both on a political level and on a spiritual level. We need to act with a sense of urgency to become better Jews as a merit for our brothers and sisters around the world who are in danger.

Nevertheless we can never forget the message that in every generation they rise up to destroy us and Hashem has been there to protect us and bring us salvation.

For this week we should take on an act of Torah observance whether it be kindness, prayer, Torah study, blessings etc. as a merit for our extended family. We should also take a moment to remember we are never alone and the creator of the universe has our back!

Have an awesome Shabbos!

## HALACHIC INSIGHT

There are instances in which one is permitted to chop a fruit or vegetable into very small pieces. One may chop fruits and vegetables into pieces using the handle of a knife or fork. this is permitted because cutting with a handle is a highly irregular manner of grinding. Many poskim rule that the prohibition against grinding does not apply if the food is being prepared for immediate consumption. According to this view, one may cut a fruit or vegetable into very small pieces. Other poskim disagree and forbid cutting food into very small pieces even immediately before the meal. it is better to abide by the stricter version, however in cases of necessity the lenient view may be followed. There is a view that the exemption of grinding for immediate use does not extend to mashing, even in a case of necessity. therefore if food must be mashed for a baby it is preferable that one do so only with the handle of a utensil
